

CARL THOMAS CLARK  
1499 Gormican Lane  
Naples, Florida 34110

BIOGRAPHY:

Carl Clark is a native of New Jersey and has been a full-time resident of Florida since 1998. Carl studied Architecture at Drexel University. His career spanned thirty-five years culminating as President of a large Architectural-Engineering firm in Philadelphia.

STATEMENT:

My paintings are reflections of impressions of places I've experienced. The original concepts are reduced to the essential elements which convey a sense of place and time.

The images are represented in strong composition and abstractions of color selected to express the feelings evoked from those places.

My style varies from abstract to realistic and covers a wide range of subject matter. The influence of my architectural background is always present. The acrylic medium allows for more fanciful interpretations of the subject matter. One of the great joys of painting is have my work evoke some emotion – a memory of a time, a place or a celebration of color.
